## Stakeholder Map

Stakeholders grouped by influence and interest in the project.

### *High Influence / High Interest*

- \* Product Owner & Engineer: delivery and quality of the full platform.
- \* Academic Supervisor / Committee: methodology compliance and evaluation.
- \* Clinical Consultant: medical accuracy of CVD content and disclaimers.

### *High Influence / Low Interest*

- \* Data Source Owners (WHO/EU/national): license compliance, citation, and correct source representation.

### *Low Influence / High Interest*

- \* End Users (clinicians, educators, analysts, readers): usability, trust in content, and usefulness of search/filters and analytics.

### *Low Influence / Low Interest*

- \* General public readers (non-professional): occasional browsing and informational use, without direct influence on scope.
